

Why should I invest in Career Coaching?

Is it time to take your career to the next level? Are you feeling stuck in your current position? Not sure what career path is right for you? Nally Ventures offers live virtual Career Coaching with an experienced coach to professionals and students entering the workforce looking to gain a better understanding of themselves and their career interests.

Our Process

Our process is simple. Before your first session, you will take The Birkman Method® Assessment. The Birkman Method® Assessment paints a comprehensive picture of an individual's personality and motivations by measuring four core aspects of personality. During your first session, your coach will debrief the results with you to give you insights into your interests and complementary career areas. From there, this tool will help you and your coach to develop a career roadmap so you walk away with clear objectives and goals.
